

**Play value**

The construction principle is like two Hexagonal Huts put on top of each other. By its light and harmonious design and the pleasantly warm wood, the Hut becomes the centre piece of a small play area. Four storeys inside invite for climbing and hiding. Right on the top floor under the roof there is a cosy little room for chatting. All levels can be reached by ladders and ways through. Interesting attachment parts such as a suspension bridge, which links the hut with a hill, or a slide as way down, offer versatile play possibilities with a strong expression.

*Attachment elements not included in the scope of components*

Interesting attachments, such as a suspension bridge that connects the hut to a hill or a slide as an exit, turn the hut into a concentrated play point with strong charisma.

**Fundamental characteristics**

- Light and harmonious appearance
- Four different levels which can be reached by ladders and ways through
- Incentive for playing: friendly appearance, gaining height, role-playing games
- Movement: climbing

**Recommended for**

- Kindergarten children
- School children
- Supervised play areas, such as kindergartens, schools, after school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

**Big Hexagonal Hut with roof**

**3.17000 / 3.17050**

**Order No. 3.17000 / 3.17050**  
**Big Hexagonal Hut with roof**

Safety distance   
 Device dimensions   
 Functional distance 

Scale 1:100

Safety check according to DIN EN 1176

**Components**

- 6 Side parts (partly with walls)
- 2 Whole floors
- 2 Half floors
- 1 Ladder outside
- 1 Continuing ladder inside
- 1 Roof
- 6 Steel feet

**Installation information**

Surfacing requirements corresponding to a fall height of  $\leq 2.00$  m (please refer to price list for more detailed information)

Foundations  
 6 items 80 x 80 x 50 cm  
 Excavation depth 70 cm

**Attention:**  
**Exact measurements may vary;**  
**for all installation dimensions refer**  
**to current assembly instructions.**  
 Technical changes reserved.

**Technical information**

Equipment made of non-impregnated mountain larch

**Core-free**  
 Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

**Claddings**  
 Claddings made of mountain larch (4 – 5 cm). Peeled white by hand, natural tree surface remains tangible and perceptible

**Tongue and groove**  
 Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

**Hardwood rungs**  
 Climbing rungs made of hardwood (ash)  $\varnothing 4.2$  cm, milled and mortised, secured against twisting, easy to grip and not cold for children to touch

**Adjustable**  
 Adjustable two-piece bolt connection, easy to maintain, no projecting threads

**Ground anchor**  
 All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

**For more detailed explanation of the quality characteristics see price list.**

**Order No. 3.17050**

As above, but with front of claddings instead of smooth edge boards

**Dimensions**

(small deviations possible)

|               |               |
|---------------|---------------|
| Height        | 3.30 m        |
| with roof     | 4.00 m        |
| Floor heights |               |
| whole floors  | 0.50 / 1.50 m |
| half floors   | 2.00 / 2.85 m |
| Side length   | 1.25 m        |
| Weight        | 1060 kg       |
| Roof          | 180 kg        |
